Fatfish's Malaysian appetite

SYDNEY: An Australian-listed company that invests in internet ventures has brought a majority stake in Malaysian-based mobile games provider AppXplore.

Fatfish Internet Group, which has headquarters in both Melbourne and Singapore, has bought a 70 per cent stake in AppXplore through its High Joyful International subsidiary and is expecting big things from the games maker.

Chief executive Kin-Wai Lau said the company hoped to double downloads of AppXplore's products in the next year.

AppXplore is one of a handful of mobile games "studios" in Southeast Asia to have produced several games that have passed the one million downloads mark.

It developed the first Malaysian iOS game to be featured in Apple's App store.
